Cyberia games

ENTRANCE IGLOO SNOWPLAY 40

Artifacts shop, reception, photo booth, Polar bear creation station

Entrance with stairs to 2nd level

Entrance to the Arctic Experience and 4D theatre

An interactive museum exhibit titled "Arctic Experience". The central feature is a large, white, textured sculpture of a polar bear, illuminated from below with a blue light. The bear is positioned on a circular platform. In the background, there are several large digital screens displaying Arctic scenes: one shows a snowy landscape, another shows a ship on the water, and a third shows a close-up of a polar bear's face. Several people are interacting with the exhibit. A man in a white jacket is crouching down, talking to a young child. Other visitors are seen in the background, some looking at the screens and others at the bear sculpture. The overall lighting is dim, with the primary light sources being the blue glow from the bear and the screens.

Arctic Experience

Arctic 4D theatre

Central corridor

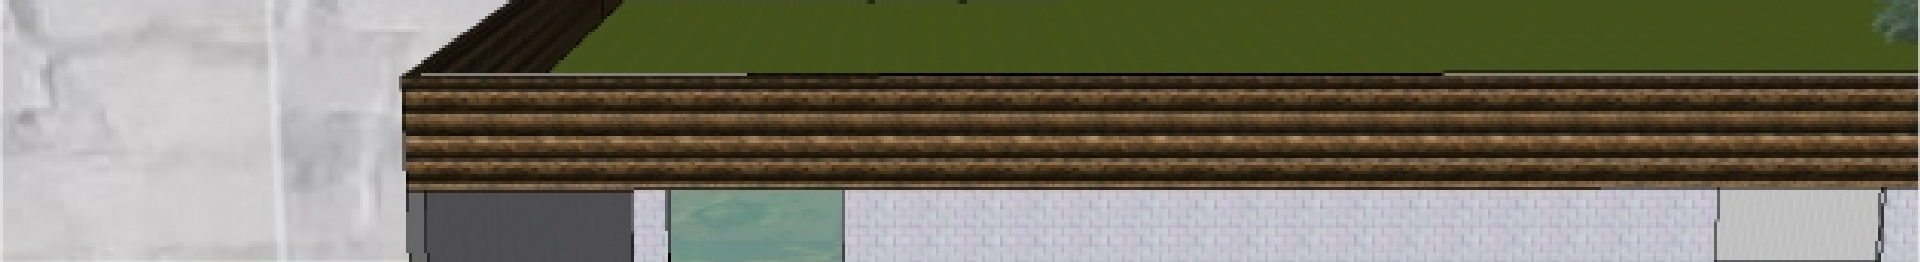

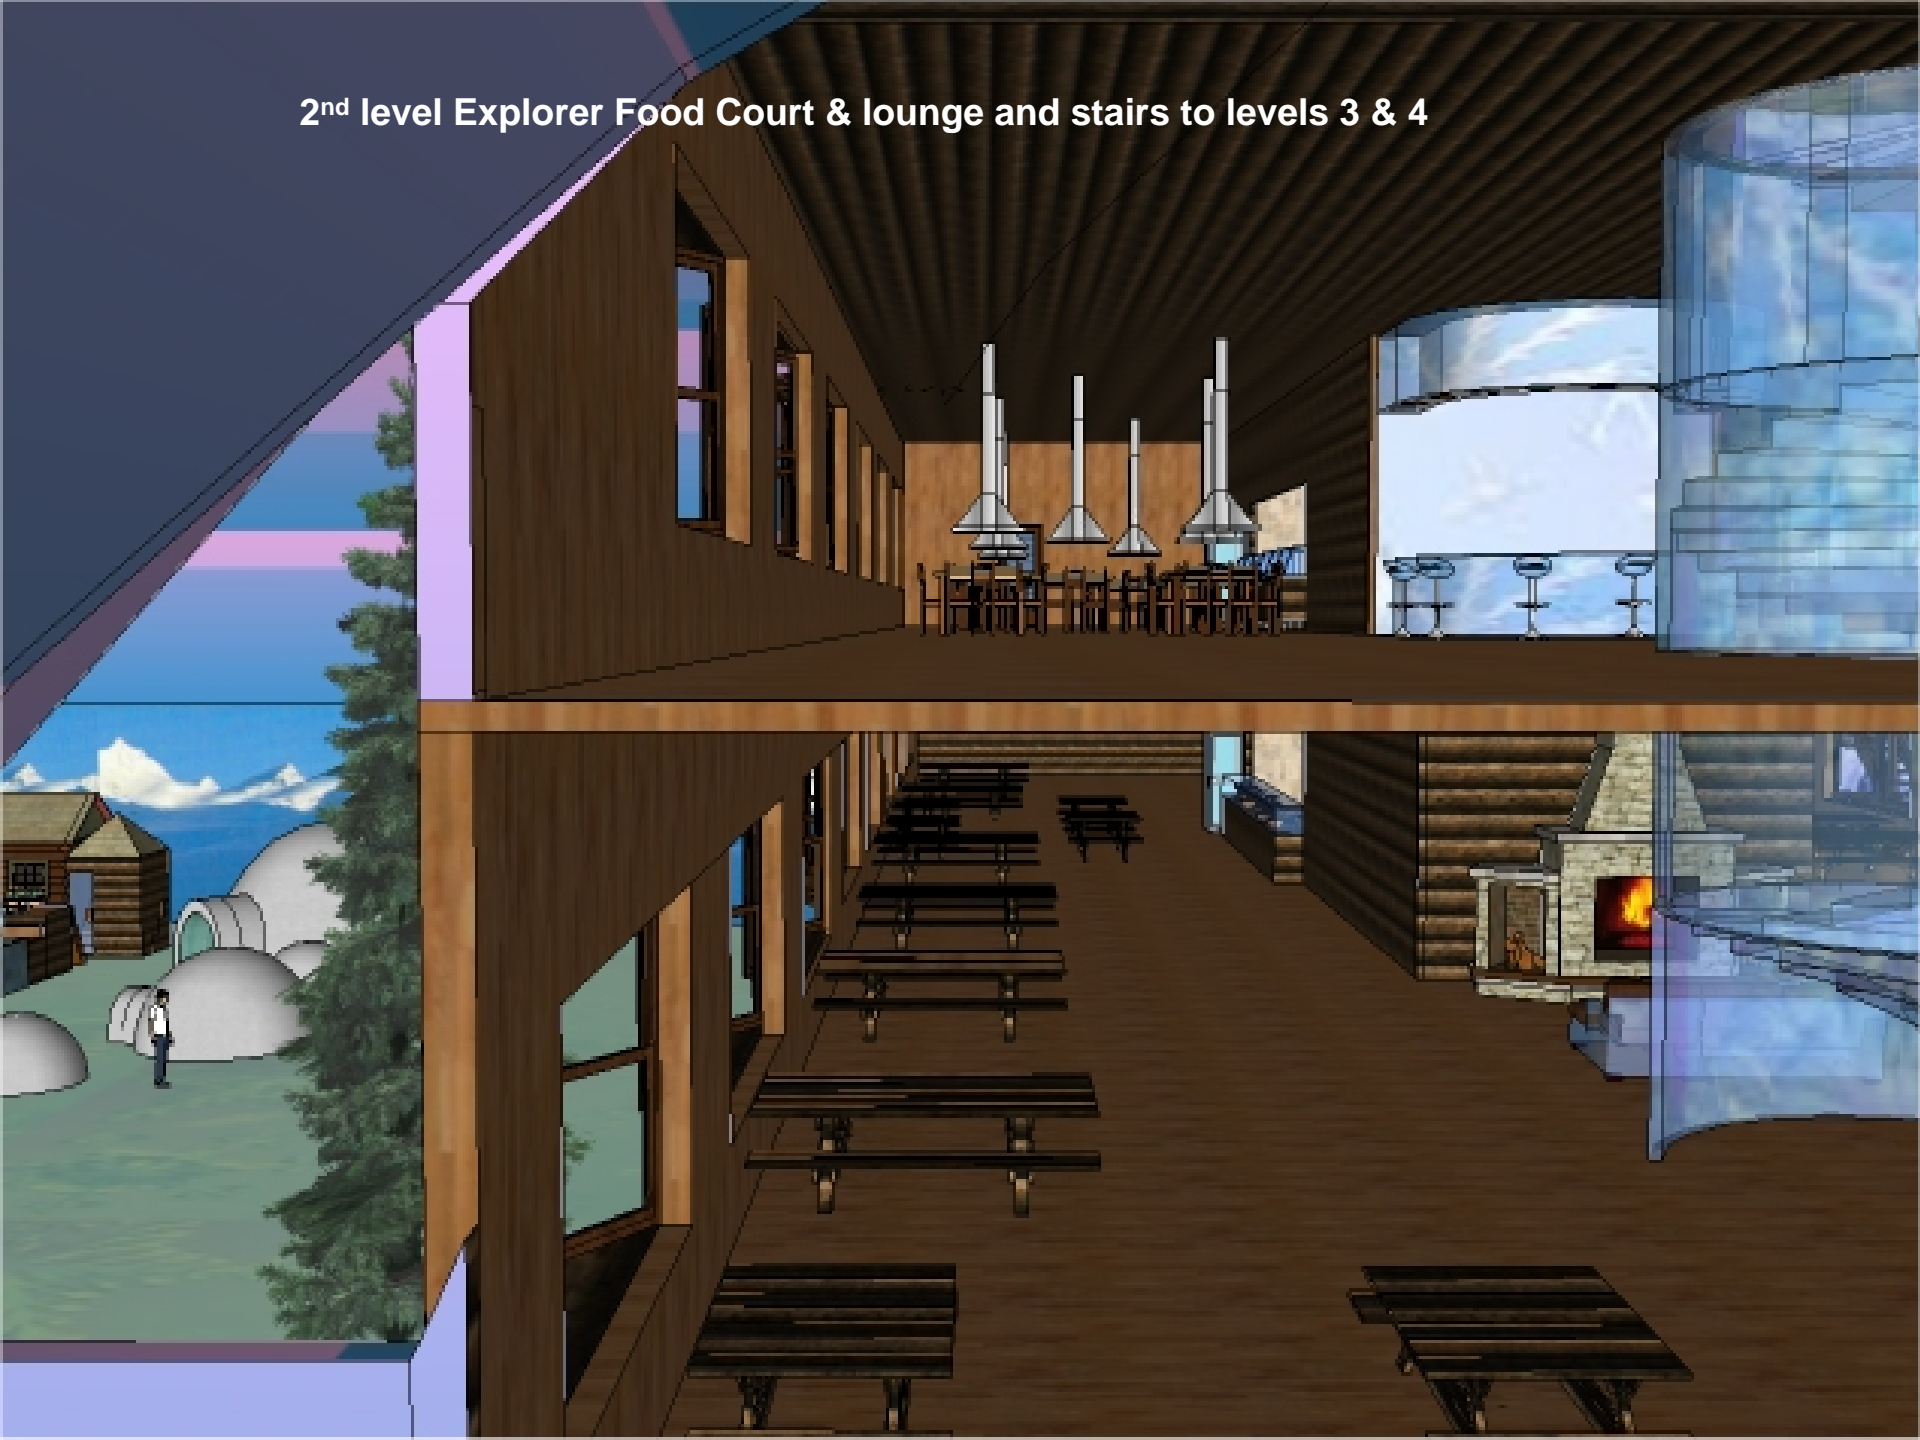

Base Station rental area, goods lift and sanitary with showers

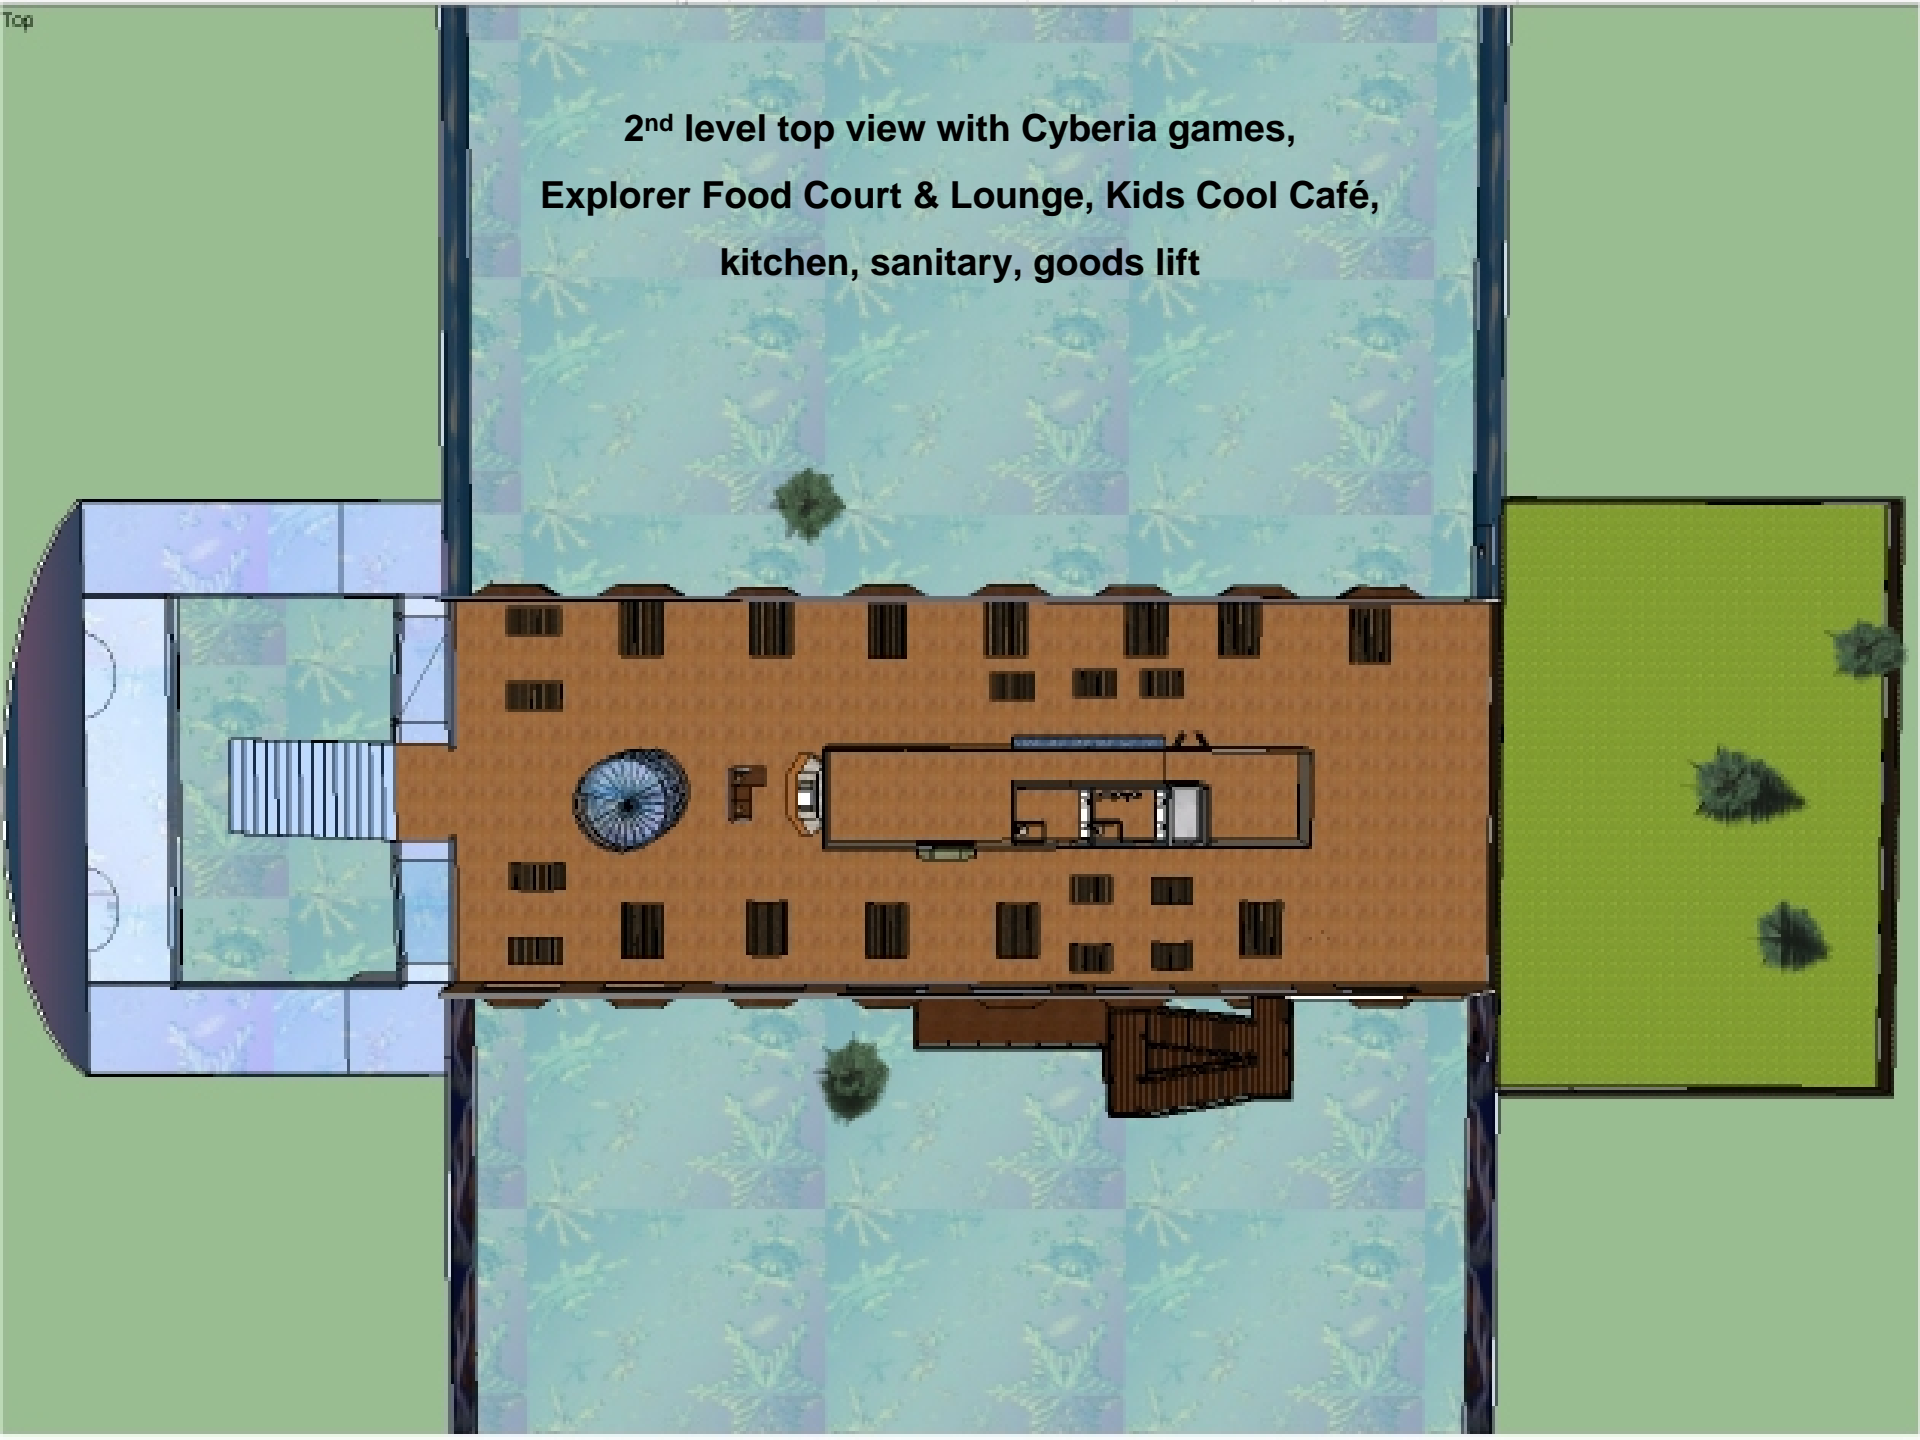

Machine room at rear and outside terrace on top
