

AISLE 1500

Unlimited Snow provides a unique product...winter! Indoor snow halls offer customers numerous winter activities in two sizes. The "Igloo" dome stands 30 meters in diameter and features snow play and games, tubing, and tobogganing, bumper cars on ice, lazer tag in the snow, all with indoor lighting projections to give the feel of winter. The larger "Arctic" adds to all this the fun of indoor snowmobiling,

skiing, and “water” slides with snow under an arena of 6,000 square meters. Sounds like great fun for a themed section, or a winter festival.
