

Snow-how

Unlimited Snow has unique experience in winter sports, snow production and snow halls. Based upon this experience, considerable research and development, Unlimited Snow is able to provide extensive know-how and a wide range of services and products around the world.

Unlimited Snow offers various snow production methods to provide the most suitable real or artificial snow solution for each imaginable application. This includes indoor snow slopes, indoor winter experiences, sporting and promotional events with snow- and winter-related themes.

Indoor snow halls

Unlimited Snow opens the door to the exciting world of indoor winter sports and winter experiences. Indoor snow halls may range from so called 'compact halls', as snow experiences situated in attraction parks or in geographical areas where people have never seen snow, to large halls with a variety of ski, snowboard and toboggan runs. Halls can be

A perfect piste

designed in cooperation with clients and can also be integrated in any entertainment centre, shopping mall and so on.

Existing halls attract between 200,000 and 400,000 on slope visitors and many more spectators.

Unlimited Snow's cooperation with international partners ensures optimal solutions with the capability of offering services throughout all phases of a project. ■
